

Certificate of Compliance

Restrictions of Hazardous Substances

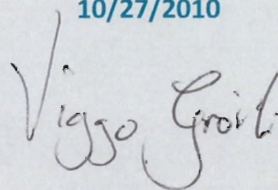

We guarantee that all integrated circuits (IC) produced by Energy Micro comply with the European Parliament Directive 2002/95/EC of 27 January 2003 about Restriction of Hazardous Substances (RoHS). Energy Micro's integrated circuits does not contain or contain only a maximum concentration of 0,1% by weight in homogeneous materials for the following substances (1000ppm):

- Lead and lead compounds,
- Mercury and mercury compounds,
- Hexavalent chromium,
- Polybrominated biphenyls (PBB),
- Polybrominated biphenyl ethers (PBDE),

and a maximum concentration of 0,01% by weight in homogeneous materials (100ppm) for

- Cadmium and cadmium compounds.
