

## **Wakefield Solutions Introduces Thermovations Engineering Platform**

Wakefield Solutions, Pelham, New Hampshire is pleased to launch a new engineering group that will provide existing and new customers with additional thermal management solutions to improve their products performance. Wakefield Thermovations is introduced to deliver new product and service developments and advancements to our customers' thermal and mechanical engineering teams.

With continuous improvement in design and manufacturing a key benchmark for global companies, Wakefield Thermovations will deliver innovative thermal management solutions early in a customer's product development cycle to insure cost-effective, integrated design, and efficient heating and cooling results.

With a dedicated team of thermal specialists, this new engineering group will develop and provide the following services:

- Comprehensive Thermal Modeling
- Detailed Thermal Analysis of existing products and new design concepts
- Heat and Cooling Transfer Simulation
- Thermal Performance Verification
- Computer Aided Design using Solidworks and FlowWorks
- Dedicated Thermal Laboratory Testing

Wakefield Solutions Inc. has more than 50 years of engineering and manufacturing experience in delivering the right thermal management answers for our customers.

With the introduction of this new product and service offering from Wakefield Thermovations, we look forward to providing more comprehensive thermal solutions.
