

Manufacturing technology solutions through our brands:

Arcoelectric Bulgin Sifam

BULGIN BATTERY HOLDERS

Types:

- Front Panel Mounting (Sealed to IP67)
- Panel Mounting
- PC/Base Mounting

Highlights:

- Battery size ranges: AAA(R03), AA(R6), C(R14), CR123, D(R20) and PP3(6R61)
- Accommodates 1-4 cells
- Screw Panel Fixing
- Flange Panel Fixing
- RoHS Compliant
- Front Panel Sealed to IP67
- Operating Temperature Range from -30°C to $+70^{\circ}\text{C}$
- Open Frame styles - most have interlocking facility to join adjacent holders.

Typical Applications:

- Audio Equipment
- Portable Equipment
- LED Torches
- Memory Back-Up
- Medical Equipment
- Power Tools
- Communication Equipment
- Portable Stove Top
- Cameras - Digital and Standard
- Wireless Equipment
- Alarm Systems

Manufactured from quality molding and metal components to ensure a secure and reliable connection, Bulgin's battery holder range caters for battery sizes AAA(R03), AA(R6), C(R14), CR123, D(R20) and PP3(6R61), accommodating 1, 2, 3 or 4 cells. There's a choice of fixing styles including screw and flange panel fixing, PCB and base mounting versions.

The panel mounting versions are now available in two styles; standard fixing and front panel sealed to IP67, extending the applications into harsher external environments where dust or water would inhibit equipment operation. All Bulgin's battery holders are designed to operate in temperature ranges from -30°C to $+70^{\circ}\text{C}$ and they all have a flammability rating of UL94V-0, making them both durable and safe.

The open frame styles are designed to be either PCB or base mounted and most have an interlocking facility to join adjacent holders together. Principle applications include portable equipment and memory back-up.
