Wire & Cable Design Solutions

Carol® Brand: The Preferred Name in Electronics & It Keeps Getting Better

How Well Do You Know Carol?
Check out the below for information...

BROADEST LINE & MOST COMPETITIVE CROSSES

General Cable's Carol® Brand Electronics offering provides the broadest product line available with more competitive crosses than anyone. Many of these cables are **in stock** and **ready for immediate shipment** from one of our stocking distributors. [Click here now](#) to check our Cross-Reference Guide now at www.GeneralCable.com.

CABLES THAT EXZEL

General Cable's **EXZEL High-Endurance Electronic Cables** are engineered for cruel and usual punishment... Choose EXZEL for extreme environments where unparalleled performance is critical and ***cable failures are not an option***. An exceptional choice that offers complete peace of mind, this cabling line *exzels* in applications where oil, liquids, vapors or other substances can attack the jacketing of conventional "round gray" PVC electronic cables. [Get more information on EXZEL now!](#)

ARMORING CAPABILITIES

General Cable offers the capability to armor virtually any Carol® Brand Electronics cable. The interlock armored option provides outstanding mechanical protection and is flexible for easy installation, potentially saving time and money. The process to convert a standard Carol Electronics cable to an armored cable is simple-all you really need to know is which cable you'd like to armor, whether you prefer steel or aluminum interlock armor, and what put-up length you require.
