

CAROL® SPOTLIGHT

General Cable Proudly Features EXZEL® Electronic Cables

As a full electronics solutions provider with a commitment to designing innovative cable constructions, General Cable recognizes the growing demand for a higher performance line of electronic wire and cable to support emerging technology, mission-critical applications and today's environmental concerns. That's why we've introduced a new, tougher addition to the CarolBrand family: **EXZEL High-Endurance Electronic Cables**.

General Cable's EXZEL High-Endurance Electronic Cable are engineered for cruel and usual punishment... Choose EXZEL for extreme environments where unparalleled performance is critical and **cable failures are not an option**. An exceptional choice that offers complete peace of mind, this cabling line *exzels* in applications where oil, liquids, vapors or other substances can attack the jacketing of conventional "round gray" PVC electronic cables.
