35DBM10B2U-L
35DBM10B2U-K

Portescap is committed to supplying products worldwide that meet the requirements of its diverse customer base and comply with all applicable governmental regulations. Effective July 1, 2006, the European Union has mandated that certain categories of electrical and electronic equipment sold within Europe must comply with the directive (“Restriction on the use of certain hazardous substances in electrical and electronic equipment-2011/65/EU”) commonly called RoHS 2. These restricted substances are:

Substance	Maximum Concentration Per Homogeneous Material Level (ppm)
Lead ⁽¹⁾	1000
Mercury	1000
Hexavalent Chromium	1000
Cadmium	100
PBB	1000
PBDE ⁽²⁾	1000

(1) Exemption applied: Lead in aluminum contains approx. 0.35% lead by weight.)

(2) The above products do NOT use the exemption “DecaBDE in polymeric applications”.

Although Portescap products do not directly fall under the RoHS directive, some of our standard product families have been evaluated for RoHS compliance, and we have evaluated special products as requested by our customers.

The product you inquired about, above part numbers are compliant with the RoHS directive listed above. Please do not hesitate to contact us if you have any questions or concerns.

Best regards,

Milton Dcunha
Customer Quality Manager
