Curtis Industries Welcomes Western Regional Sales Manager

MILWAUKEE, WI – May 17, 2010 – Curtis Industries is announcing the addition of Kurt Johnson as the new Western Regional Sales Manager for Curtis Industries and Filter Networks. Kurt has a 20-year track record of hardware technology expertise that has successfully secured multimillion-dollar revenue streams within regional, national and global territories. Kurt previously worked for industry leaders Arrow Electronics and Pioneer Standard Electronics, Emerson Electric and Kanematsu Corporation.

Kurt resides in the heart of Silicon Valley and will focus on the entire western region of the United States. The President of Curtis Industries, Steven Powers, stated, "I am confident that he will make significant strides to rapidly expand our market share within this region." Kurt is equally enthusiastic about the untapped opportunities in the industry saying that "it will be very exciting to build the business together." He will commence on June 1st after an official kick-off at the Milwaukee headquarters.

Curtis Industries manufactures RFI Power Line Filters including general purpose, medical, high performance, power entry, three phase, military, DC and wide band as well as a broad offering of terminal blocks and custom connection devices. In-house custom design and testing is offered. Detailed information is available on the website at www.curtisind.com.
