PRECI-DIP MEETS TODAY'S DEMANDS OF THE MILITARY FOR INNOVATIVE AND COMPLIANT INTERCONNECT SOLUTIONS

PATENTED SOCKET CONTACT

- Reverse clip technology (left)
- Eagle Grip clip technology (right)

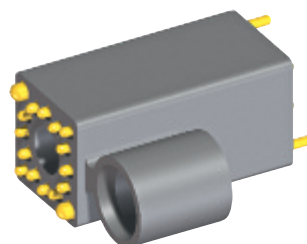

PRECI-DIP, one of the world's leading makers of AS39029 contacts, offers an array of products especially designed for military and defense applications. Innovative clip technology from PRECI-DIP delivers an unbeatable price-performance ratio.

CUSTOM DESIGN AS WELL

Our MIL contacts are available in two different versions: a hood contact with reverse clip and a hoodless contact using our Eagle Grip clip. Both contacts are QPLed products and comply with stringent AS39029 specifications.

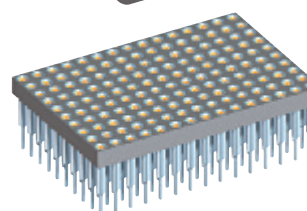

The range of PRECI-DIP solutions also includes custom-designed products for specific applications. Spring-loaded products for battery packs, spring-loaded contacts for aircraft countermeasures dispenser systems and connector assemblies for military radio are but some of the innovative industry solutions we deliver.

Your PRECI-MIL team is your dedicated partner for the development of new interconnect products specifically designed for military and defense applications. Benefit from a proven track record in these challenging fields and let us offer you the support you need to implement your projects.
