

## ZV Series

### Features

- ◆ Low impedance 100 KHz
- ◆ Reflow soldering is available
- ◆ Available for high density mounting
- ◆ Endurance 2000~5000 hrs at 105°C
- ◆ RoHS Compliant

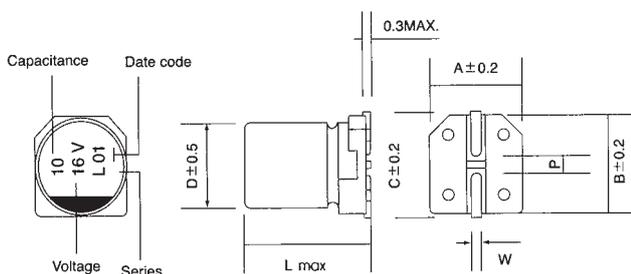

### Specifications

| Item  | Performance Characteristics  |                           |                           |                    |                                    |               |                           |    |                 |    |    |    |    |    |    |                 |   |   |   |   |   |   |
|---|--|---------------------------|---------------------------|--------------------|------------------------------------|---------------|---------------------------|----|-----------------|----|----|----|----|----|----|-----------------|---|---|---|---|---|---|
| Operating Temperature Range   | -55~ +105°C  |                           |                           |                    |                                    |               |                           |    |                 |    |    |    |    |    |    |                 |   |   |   |   |   |   |
| Rated Voltage Range   | 6.3~50 VDC   |                           |                           |                    |                                    |               |                           |    |                 |    |    |    |    |    |    |                 |   |   |   |   |   |   |
| Capacitance Range   | 1 to 6800 $\mu$ F  |                           |                           |                    |                                    |               |                           |    |                 |    |    |    |    |    |    |                 |   |   |   |   |   |   |
| Capacitance Tolerance   | $\pm 20\%$ (120Hz, +20°C)  |                           |                           |                    |                                    |               |                           |    |                 |    |    |    |    |    |    |                 |   |   |   |   |   |   |
