MODEL NUMBER: P005-006-14LA

Computer power extension cord with left-angle C14 plug allows connection of a PC, printer or monitor in tight spaces or awkward angles.

Features

C14-to-C13 Power Cable for Network Devices That Require a Heavy-Gauge Connection This IEC-320-C14 to IEC-320-C13 cable features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. This C14 male to C13 female cord can be used to connect a computer, server, monitor or drive to a UPS system or PDU or replace or upgrade the standard power cord provided by the device's manufacturer. The 6-ft. (1.83 m) length allows you flexibility in placing equipment with respect to the power outlet.

Left-Angle C14 Plug Makes Connecting in Tight Spaces Easier The C13 to C14 left-angle cable is easier to install in confined spaces, such as the back of a rack enclosure cabinet. When plugged in, the left-angled C14 plug guides the computer power supply cable parallel to your peripheral, allowing you to push the device up against a wall or hide it behind a desk to maximize space.
