

NOTE

1000W 230V Power Conditioner with Automatic Voltage Regulation (AVR), AC Surge Protection, 4 Outlets, UNIPLUGINT Adapter

MODEL NUMBER: LR1000

Maintains usable 220V–240V nominal output to sensitive electronics during severe brownouts and overvoltages. Prevents surges and spikes from damaging circuitry. Filters out potentially disruptive line noise.

Description

The LR1000 1000W 230V Power Conditioner adjusts under- and overvoltages to provide safe, computer-grade AC power. Built-in automatic voltage regulation (AVR) offers three levels of voltage stabilization that correct undervoltages as low as 168V and overvoltages as high as 278V back to regulated 230V nominal power. Providing optimum voltage conditions not only extends the life of your equipment, but also keeps your equipment working through brownouts and prolonged overvoltage conditions.

A 340-joule surge suppression rating meets the IEEE-587 standard for surge suppression (both categories A and B) and prevents spikes from inflicting damage, data loss or corruption and audio/video performance problems on your connected equipment. EMI/RFI noise filtering protects your AC line from disruptive electromagnetic and radio interference.

Just connect the detachable 2-meter NEMA 5-15P to C13 power cord to an AC power source, and plug up to four devices into the outlets. Two NEMA 5-15R and two C13 outlets accommodate a variety of connected components. An included UNIPLUGINT universal adapter allows most worldwide plug configurations to connect to the LR1000's C13 outlets. You can monitor incoming voltage levels using the three diagnostic LEDs on the front panel. The compact LR1000 fits comfortably into your computer or home theater setup.

Features

Protects Valuable Electronics

- Rated at 230V/1000W/4A
- · Ideal for computers, routers, modems, printers, home theater components and point-of-sale equipment
- Connect up to 4 electronic devices to the rear outlets: 2 NEMA 5-15R and 2 C13
- Includes detachable 2 m NEMA 5-15P to C13 power cord
- Included UNIPLUGINT universal adapter fits into C13 outlet and accepts most worldwide plug configurations
- Compact unit (7 in./17.8 cm high) fits comfortably into your computer or home theater setup

Highlights

- Ideal for computers, routers, modems and home theater components
- Corrects under- and overvoltages in 168V–278V range
- Protects against spikes with 340 joules of surge suppression
- Monitors power status with frontpanel diagnostic LEDs
- Features 4 rear outlets: 2 NEMA 5-15R and 2 C13

Package Includes

- LR1000 1000W 230V Power Conditioner
- UNIPLUGINT adapter
- NEMA 5-15P to C13 power cord, 2 m
- Owner's Manual

Automatic Voltage Regulation (AVR)

- Monitors incoming AC power and keeps equipment working through brownouts and prolonged overvoltage conditions
- Corrects undervoltages as low as 168V and overvoltages up to 278V

AC Line Surge Suppression

- 340 joules of surge suppression protects against potentially harmful power surges and spikes
- Includes full normal (H-N) and common (N-G/H-G) line surge suppression

EMI/RFI Line Noise Filtering

 Removes electromagnetic and radio frequency interference that can disrupt or damage your equipment's performance

Built-In Diagnostics

- Front-panel LEDs indicate incoming voltage level
- Rear on/off switch provides one-touch power control over all components
