# Branding Announcement - Archer

#### Range:

- All connectors starting M50 (1.27 x 1.27mm pitch)
- All connectors starting M52 (1.27 x 2.54mm pitch)

Catalogue pages 91 to 101 (in Connectors / blue section)

## Features and Benefits

- 50% space saving over M20 (2.54mm pitch)
- 35% space saving over M22 (2mm pitch)
- Board-to-board variable heights possible
- Throughboard and SMT options, Vertical and Horizontal
- Tape and reel available on SMT
- Simple pin header and socket arrangement, industry standard

# **Applications**

- Industrial
- Instrumentation
- Aviation / Aerospace
- Test / Measurement
- Telecoms / Datacoms

Hand-held portable equipment

... anywhere where M20 and M22 are too big.

# Range review

The Archer range is split into 3 sections:

- M50-3xx and Pin Header Variants
- ► M50-4xx
- M52, including Pin Header Variants

**Note:** M50 connectors do not mate with M52 connectors.
