Why Orion?

One-stop-shop

In addition to Orion's broad selection of AC Fans, DC Fans, and blowers, we manufacture and stock cords, filters and guards to fit fans ranging from 25mm - 254mm. Ask about free fan guards on qualifying fan orders.

What's New @ ORION

Low-Cost Short Fan Tray

Designed to provide a high CFM and cost effective solution for rack and enclosure applications, the OA300ST short fan tray is the newest addition to the Orion Fan's Fan Tray line. This low cost, 3-position fan tray easily fits into any 19" rack and comes packed with features including a modular power cord, circuit breaker and lighted rocker switch that would typically cost extra on similar competitor models.

FANtastic Products

High Power 10" AC Fan

Orions' [OA254 Fan Series](#) (254mm x 89mm) features an airflow of 547 CFM on the standard model and an airflow of up to 850 CFM on the XC high performance model. These 10" fans are specifically designed to move large amounts of air in confined spaces in rack and panel or cabinet enclosure applications. They are stocked both in-house and with our distribution partners, available for immediate worldwide delivery.
