

# CDE at a Glance

## Capacitors for Inverter Applications

Cornell Dubilier Electronics excels with leading edge aluminum electrolytic and film dielectric capacitors designed to solve the unique demands presented within each of the electronic stages of power inverters. Among CDE's 35,000 worldwide customers are leading manufacturers of welders, UPS systems, motor drives, medical imaging, medical lasers, semiconductor processing and inverters for distributed/renewable power.

### Power Film - DC Link

CDE offers the most advanced metallized film technology for long life and high reliability in DC link applications. Available in a variety of package styles, our technology combines high capacitance and very high ripple current capability needed for today's inverter designs for wind, solar, fuel cells, UPS systems, medical power and more.

### Screw Terminal Capacitors

CDE is the industry's leading manufacturer of screw terminal aluminum electrolytic capacitors for inverter applications. Use our online [Java applet tool](#) to estimate capacitor lifetime based on operating conditions.

- DCMC Highest Capacitance
- 3186 Best Value
- 500C 95°C, Long Life
- 3188 85°C, Value, Long Life
- 520C 85°C, Inverter Grade
- 550C 105°C, Inverter Grade

### AC Harmonic Filter Capacitors

Choose from single phase (Type PC) and 3-Phase (Type PFCH) fluid filled AC capacitors designed for filtering harmonics at the input or inverter output. Oil filled types contain an environmentally friendly fluid and their built in safety pressure interrupter ensures open circuit failure mode at end of life. Use axial type ACF for the same high performance filtering where dry construction is preferred.

Learn more - <http://www.cde.com/products/harmonic>

### IGBT Snubber Modules

Low inductance snubbers protect IGBT modules from overvoltage transients. Choose from three styles that mount directly to single and dual IGBT modules for maximum protection.

Learn more - <http://www.cde.com/catalog/film/#igbt>

### Type UNL Series - DC Filter

This series of metallized polypropylene capacitors features voltage and RMS ripple ratings extending well beyond the best aluminum snap-in capacitors. One UNL can replace up to 3 snap-in aluminums.

- Voltage ratings up to 1500 Vdc eliminating the need for serie connections
- Dry construction, no electrolyte

Learn more - <http://www.cde.com/catalogs/UNL.pdf>

### Snap-In Aluminum Electrolytics

From 22 x 20mm to 50 x 105mm and 2 to 5 pin we offer the industry's widest selection of snap-ins up to 500V.

- Type SLPX 85°C, 3000 h, low cost
- Type SLP 105°C, 3000 h, low cost
- 25% smaller Types 380LQ & 381LQ
- 25% more ripple Type 381LR, 105°C
- 4 & 5 pin Types 382LX
