Find Your Cooling Solution

Orion Fans has the most extensive line of AC fans, DC fans, fan trays, fan accessories and blowers in the industry. With the quickest response, largest available fan inventory, shortest lead times and competitive pricing, Orion Fans will deliver the exact cooling solution you need, faster than anyone.

What's New from ORION?

Only The Lowest Cost Cooling Solutions in the Industry

Lowest Cost AC Fan Airflow Monitoring System

At \$37.50, the AFM Series is the lowest cost solution for indicating positive or negative airflow in AC or DC fan/blower applications. The AFM module operates an optical LED or audible alarm when airflow falls below 8.2 ft/s due to fan filter clogs or foreign materials coming in contact with the fan blade.

- Mounts easily via clip or clamp onto existing systems
- Installs to front or intake side of fan
- Rated to IP20 and NEMA 1 certifications

FANtastic Products

Orion offers the lowest cost Louvered Filter Fan Kit in the industry. Consisting of an AC fan, louvered fan guard, filter, metal guard and hardware, the rugged kits protect electronic, electrical, and industrial cabinets and enclosures from dust and dirt. Flame resistant to UL94V-0, the Louvered Filter Fan Kits are rated to IP54, IP55 or IP56 depending on fan used. NEMA 12 protection grades can be maintained when used with Orion Fans' harsh environment fans.

- Filters to 8 microns
- Available for 120mm, 172mm, 225mm, 254mm and 280mm AC and fans
- Kits requiring DC fans are also available upon request

We'll Make You A Fan

The OA600ST Series is the most price-competitive 1U-high six-position fan tray on the market. The economical, high-performance short fan tray features a 2M-length power cord for North American NEMA 5-15P or IEC320-C14 connection, a protected lighted rocker switch and a resettable circuit breaker for protection. With an operating temperature range of -40°C to +75°C and a power rating of 90W, the OA600ST Series fan tray has a life expectancy of 60,000 hours at 25°C.

- Available in 115VAC and 230VAC versions
- Airflows up to 620 CFM
- Noise-level of only 56dB
