

## Manufacturing Resources:

### *Facilities in Charlotte, Toronto, Taiwan and China ...*

**NorComp's** manufacturing resources include an integrated facility capable of high volume throughput with precision molding, stamping, plating and assembly. Tool design and maintenance are controlled by corporate staff. In addition, NorComp's in-house hardware operation offers fast turn-around on connector hardware requirements.

**NorComp** supplements its capacity through joint ventures with organizations that meet strict worldwide standards of quality. NorComp's partner companies in Taiwan and China are proud to be part of the worldwide manufacturing team.
