A WORLD OF
INNOVATION

LEDIL – BEST LED OPTICS IN THE WORLD

Global Supplier of LED Optics for Demanding Applications

Ledil, with design expertise in Finland and production facilities in Europe and China, is the leading optics supplier to the world's premier lighting manufacturers. The innovative lenses and reflectors we produce provide optimal optic performance and durability. Relationships with top LED manufacturers allow Ledil to release products alongside the newest LEDs; our customers enjoy rapid development and deployment of new fixtures with the latest technology. We are THE optics partner to ensure that your LED lighting fixture is the most efficient and innovative on the market. Our engineers possess a "can do, will do" attitude based on quality, innovation and collaboration. Ledil has a genuine desire to offer our clients competitive solutions and products and our staff consists of skillful and innovative experts that possess the latest knowledge of LED optics solutions.

High Quality Optics – More Savings

Innovative Ledil products and solutions bring out the best in LED lighting. We offer a wide range of high quality standard products and custom solutions meeting the needs and requirements of top lighting and electronics OEMs.

Our high quality optics provide better light efficiency, which leads to a lower cost per fixture. With Ledil optics the end products either require less LEDs or consume less energy. All our lenses are produced by a unique injection molding process, which insures high optical quality, performance, lifetime and functionality.

Ledil products are used every day around the world in demanding lighting solutions That need to meet stringent regulations, such as street lighting, airport lighting and office lighting – markets where the quality of lighting is the indicative criteria.

Standard Products

We have over 1000 standard products. Our wide product range includes lenses, reflectors and their combinations for various LED lights. Our professional logistics department helps you find the best solution to receive the products when you need them and at a reasonable cost.

Custom Solutions

We handle the whole process smoothly from design to delivery. Our professionals engineer the best optics to meet the specific requirements of your end product. If you need a single special lens or a more complex solution developed for a demanding lighting situation - challenge us.
