

## SmartRack 1U Hinged Wall-Mount Patch Panel Bracket

MODEL NUMBER: N060-001

Mounts a patch panel or network switch to a wall, while providing easy access to rear cabling. A dependable alternative to full-size rack installation recommended for server rooms.

### Description

The N060-001 1U Hinged Wall-Mount Patch Panel Bracket allows you to mount a 1U patch panel or network switch to a wall instead of investing in a full-size rack. Precision-made from heavy-duty 14-gauge steel with a glossy black finish, this bracket supports universal left- or right-hinge mounting that accepts standard 19-inch patch panels. Two keyhole slots are spaced 16 inches apart to align with wall studs to ensure secure wall-mounting. The rear cutout lets you feed cable through a wall opening to streamline installations and reduce cable clutter. Smooth laser-cut edges protect cable jackets from damage and wear. Stamped horizontal reinforcement ribs on the back of the bracket keep mounted equipment stable and secure.

### Features

#### Dependable Alternative to Expensive Rack-Mounting

- Mounts a 1U patch panel or network switch to a wall
- Supports universal left- or right-hinge mounting
- Compatible with standard 19 in. patch panels

#### Built for Stability

- Keyhole mounting slots spaced 16 in. apart to align with wall studs
- Stamped horizontal reinforcement ribs on rear keep mounted equipment secure

#### Convenient Rear Cutout

- Allows cable to be fed through wall openings
- Streamlines installations and reduces cable clutter

#### Precision-Made with Laser-Cut Metal

- Heavy-duty 14ga steel construction with glossy black finish
- Smooth laser-cut edges protect cables from damage and wear

### Highlights

- Precision-made from heavy-duty 14ga steel with black finish
- Supports universal left- or right-hinge mounting
- Keyhole mounting slots spaced 16 in. apart to align with wall studs
- Rear cutout for through-the-wall cabling
