SmartRack Pass-Through Side Panel with Key-Locking Latches for 42U Server Rack Cabinet, 2 Panels

MODEL NUMBER: **SR42SIDEPT**

Highlights

- Pre-installed latches lock securely with included keys to protect equipment from theft
- Brushed slots reduce dust ingress and allow easy cable routing in and out of the rack
- Made from heavy-duty steel engineered to stand up to busy IT environments
- Designed for use with 42 in. (1050 mm) depth, 42U rack enclosures
- Fits models based on the SR42UB frame design, including SR42UBEXP and SR42UBWD

Package Includes

- (2) Side panels with locking latches
- (2) Keys

Locking pass-through steel panels attach to the sides of your SR42UB-based server rack enclosure.

Features

Steel Pass-Through Side Panels for Installation on Your Tripp Lite 42U Rack Cabinet
The SmartRack® SR42SIDEPT side panels feature pre-installed key-locking latches for securing your rack equipment against tampering and theft. Designed for Tripp Lite's standard-depth SR42UB rack frame, this panel can also be added to the side of an expansion cabinet (SR42UBEXP) when application needs have changed or onto a wide cabinet (SR42UBWD) as the depth remains the same. They can also be used as replacements for existing side panels.

Convert an Expansion Cabinet into a Cabinet with Side Panels
When needs change and you want to separate your expansion rack cabinets (such as Tripp Lite's SR42UBEXP), add four** SR42SIDEPT heavy-duty steel panels to the sides of them to convert the racks into standard cabinets with additional cable management functionality. **Note**: This package includes two (2) singular panels. You will need to purchase four SR42SIDEPT panels total to completely populate an expandable rack.
