

PCN V15-003-E47540-0A

Product Change Notice

Issue Date: August 25, 2015

Change Type:

Capacity Expansion for InP based lasers and detector devices

Parts Affected:

Please refer to the attached table.

Description and Extent of Change:

Avago Technologies has recently seen unprecedented demand for its InP (Indium Phosphide) based lasers and detectors. In order to meet the market demand going forward Avago Technologies is in the process of increasing its backend chip fabrication production capacity at Inari Technology in Malaysia. All wafer-level epitaxial growth and wafer fabrication processes will stay in Breinigsville, Pennsylvania. The combination of our existing Pennsylvania fabrication facility and Inari Technologies will allow us to provide a scalable footprint for future capacity expansions.

Reason for Change:

Increase production capacity of InP lasers and detectors

Effect of Change on Fit, Form, Function, Quality, or Reliability:

There will be no change to the form, fit, function, quality or reliability of the devices.

Effective Date of Change:

Avago Technologies plans to start shipping certain devices fabricated at the new manufacturing site December 1, 2015. Other devices will be transitioned as soon as feasible and on an as-needed basis. The attached table provides the detailed target dates for start of production shipments from the new manufacturing site. The table also includes the dates for starting production shipments of laser and receiver packages containing devices manufactured at Inari Technologies. After the effective date Avago Technologies may manufacture devices at both sites and may supply products to customers from either site.

Recommended Actions to be Taken by Customer:

No action required. PCN is for information only.

Qualification Data:

Made available upon request.

These changes have been reviewed and approved by Avago Technologies engineers and managers per Avago Technologies' procedure: Change Control and Customer Notification, A-5962-6052-80.

Please contact your Avago Technologies field sales engineer or Contact Center (<http://www.avagotech.com/contact/>) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.

Parts Effected and Schedule

Product	Product Family	Estimated Sample Availability Date	Estimated Production Shipment Start
1.3um Laser Die			
293B131XXX	2.5G, 1310nm DFB laser	12/1/2015	12/15/2015
